

## Words in the Carpet - F#m

**F#m A E**

I can't keep up with my mind  
It's way ahead half the time  
You're wondering if it's making sense  
We laugh to pass the moment

**D A E F#m E**

Oo It's a shame that I could break your heart  
Oo That if I stayed I could be where you are  
Oo There's no question now you are out of reach  
Oo but my brain still thinks you are all I need

**F#m A E**

I can't help but see your face  
And feel your soul in every place  
Call it figment it's in my head  
Should I sing a hopeful song instead?

**A F#m E**

I want to go back to our nights  
I want to believe the two of us tried  
See if the words in the carpet died  
Darling I miss you I hope you're alright
